

CAMERON LEAKE

PROJECT MANAGER

Cameron joined T & J Constructions in May 2016. He is a qualified Mechanical Engineer and has experience managing civil works for a Tier 1 Construction Company (John Holland) as well as in a Local Government environment (Wentworth Shire Council).

Cameron thrives in working on challenging projects, applying his problem solving skills and a high attention to detail to all works he undertakes. He has been involved in delivering a wide range of civil works projects including road construction, stormwater, service installation, bulk earthworks and landscaping, with a track record of delivering projects on time and on budget.

Having worked from both the contractor and client side, Cameron has a well-rounded understanding of contracts and project delivery. He ensures his delivery teams are well supported and have everything they need to deliver high quality and efficient outcomes.
