

PETER WILSON

PROJECT MANAGER

Pete is a qualified Civil and Structural Engineer with experience in managing brownfield subdivisions, landscaping and bulk earthworks.

Pete prides himself on attention to detail and stakeholder management and has been part of the project management team on a wide range of projects at T & J Constructions. Pete has managed high profile projects, meeting budget constraints and fulfilling tight timeframes.

Pete's organizational skills ensure that the project delivery team has what they need to sustain full productivity and maintain project cost. Experience in brownfields work has given Pete a sound knowledge in working around existing services and dealing with civil service authorities.

When required, Pete also assists in estimating and quantity takeoffs during tender stages and preliminary evaluations to determine productivity.

Since commencing at T & J Constructions in 2014 Pete has managed an array of projects with a total value in excess of \$16m.
